Driver Training

Global Learning Services – www.globaltraining.co.za

A World Class Leader in Training and Development

1. Anti-Hijack Driver

Course Content:

1. Introduction
2. Practical Scenario's
3. The Criminal and his Tactics
4. Proactive Principles
5. Reactive Principles
6. Practical Tuition
7. Scenario's Exercise

Target: Drivers of any Vehicle

Duration: 16 Hours (2 Days)

Modules: 1 - 7

Description: Hijack, Weapons, Methods, Scenario's, Proactive Steps, Reactive Steps

Students: Minimum of 5 to a Maximum of 15

A World Class Leader in Training and Development

2. Anti-Hijack Passenger

Course Content:

1. Introduction
2. Practical Scenario's
3. The Criminal and his Tactics
4. Proactive Principles
5. Reactive Principles

Target: Drivers of any Vehicle

Duration: 1 Day

Modules: 1 - 5

Description: Hijack, Weapons, Methods, Scenario's, Proactive Steps, Reactive Steps

Students: Minimum of 5 to a Maximum of 20

A World Class Leader in Training and Development

3. Anti-Hijack Seminar

Course Content:

1. Introduction
2. Practical Scenario's
3. The Criminal and his Tactics
4. Proactive Principles
5. Reactive Principles

Target: Drivers of any Vehicle

Duration: 3 Hours

Description: Awareness, Methods, Scenario's Video Material, Proactive Steps, Reactive Steps

Students: Minimum of 5 to a Maximum of 20

A World Class Leader in Training and Development

4. Bobcat

Course Content:

1. Operation of Controls
2. Hydraulic controls
3. Principles of Operation
4. Pre-start procedures and checks
5. Shut down procedures and checks
6. Safety precautions
7. Fueling
8. Transportation

Target: Anyone who operates a Bobcat and their supervisors

Duration: 1 day for refresher training
3 days for novice training

Students: Minimum of 4 to a Maximum of 6

A World Class Leader in Training and Development

5. Code 2-14 Professional Driving

Course Content:

1. Introducing The Professional Driver
2. Driver Development Theory
3. Defensive Driving Techniques (K53)
4. Basic Vehicle Maintenance And Emergency Procedures
5. Vehicle Inspection
6. Practical Driving Skills
7. The Attitude Of A Driver
8. Basic First Aid And Fire Fighting
9. Mechanical Appreciation
10. Driver Evaluation

Target: Drivers Of Company Vehicles (code 2 - 14)

Duration: 2 Days

Modules: 1 - 8

Description: Fuel Economy Of Vehicles, S.I.P.D. Acceleration And Retardation

Students: Maximum of 4

A World Class Leader in Training and Development

6. Defensive / Advanced Driving Skills

Course Content:

1. Preventing collisions
2. Safe driving distance
3. Reaction time
4. Safe stopping distance
5. Safety vehicle checks
6. Controlling systems
7. Hazards
8. Road Awareness
9. Entering & driving on highways
10. Skid control

Target: All drivers

Duration: 2 Days

Modules: 1 - 10

Description: Road awareness, skid control, safety vehicle checks

Students: Minimum of 5 Maximum of 8

A World Class Leader in Training and Development

7. Dumper truck

Course Content:

1. Carrying Out Pre-Operating Checks
2. Carrying out pre-starting checks
3. Starting and stopping a dumper
4. Maneuvering a dumper
5. Moving a load
6. Shutting a dumper down

Target: Dumper truck drivers

Duration: 1 - 2 Days Depending On Experience

Modules: 1 - 6

Description: Carrying out pre-starting checks, moving a load

Students: Minimum of 5 Maximum of 10

A World Class Leader in Training and Development

8. Earth moving equipment

Course Content:

1. Vehicles Control - Safety Aspects
2. Mechanical Appreciation
3. Carrying out Pre-Operating Checks
4. Carrying out Pre-Starting checks
5. Starting and stopping
6. Maneuvering
7. Moving a load
8. Shutting down

Target: Drivers of Caterpillars, Tippers, Graders, Dozers and Excavators.

Duration: 1 – 5 Days

Modules: 1 - 2

Description: Carrying out pre-starting checks, moving a load

Students: Minimum of 5 Maximum of 8

A World Class Leader in Training and Development

9. Front end loader

Course Content:

1. Introduction
2. Machine Components
3. Safety
4. Operator Controls & Instruments
5. Principals Of Operation
6. Walk Round Check
7. Start up and Shut down Procedure
8. 10 SMR or daily check
9. Practical Training Schedule

Target: All Front End Loader Drivers

Duration: 1 - 2 Days Depending on Experience

Modules: 1 - 9

Description: Safety, Practical Training Schedule, 10 SMR or daily check, Principals of Operation

Students: Minimum of 5 Maximum of 10

A World Class Leader in Training and Development

10. Skid control

Course Content:

1. Introduction
 - Definition of skidding
 - How does a skid happen
 - Avoid Skidding
 - Causes of Skidding
 - Cadence Breaking
 - Aqua Planning
 - Recognizing / Removing the cause of a skid
 - Correcting a four wheel skid
 - Front Wheel Skid
 - Real Wheel Skid
 - Vehicle Control
2. Consolidation
3. Practical
 - Four Wheel Skid
 - Snap Lane Change
 - Front Wheel Skid
 - Rear Wheel Skid

Target: All Vehicle Drivers, Especially Couriers, Emergency Vehicle Drivers, Trucks, Etc

Duration: 1 - 2 Days

Modules: 1 - 3

Description: Safety, Practical Training Schedule, 10 SMR or daily check, Principals of Operation

Students: Minimum of 5 Maximum of 10

A World Class Leader in Training and Development

11. Tractor Course

Course Content:

1. Introduction
2. Tractor Theory
 - Mechanical Appreciation
 - Hydraulic System
 - Lubrication System
 - Refueling
 - Protection to Personal
 - Driving the Vehicle
 - Driver Protection
3. Pre-start Checks
4. Practical Operation
5. Evaluation

Target: All Employees, Contractors and On-Site Workers Using Tractors, Grass Cutters, Adapted Tractors, Etc

Duration: 1 - 2 Days

Modules: 1 - 5

Description: Vehicle Control, Mechanical Appreciation, Use of Implements.

Students: Minimum of 5 Maximum of 10

A World Class Leader in Training and Development

12. 4 x 4 Driving skills

Course Content:

1. The Vehicle And Mechanical Appreciation
2. Pre-Operational Check
3. Practical Driving
4. Evaluation

Target: All Employees, Contractors, On-Site Workers and Private Individuals Using Rough Terrain and Standard Vehicles in a Rough Terrain Area

Duration: 1 - 2 Days

Description: Mechanical Appreciation, Gearbox Usage, Differentials, Surface Traction, Etc.

Students: Minimum of 5 Maximum of 15

A World Class Leader in Training and Development

13. Cherry picker / Arial platform

Course Content:

1. Legal Knowledge - Driven Machinery Regulations
2. Introduction to Arial Platform Operation
3. Pre Operational Inspection
4. Setting up the Platform
5. Safety Features
6. Typical Checklist

Target: Drivers of this particular Vehicle type

Duration: 1 - 2 Days

Modules: 1 - 6

Students: Minimum of 5 Maximum of 15

A World Class Leader in Training and Development

14. Taxi Operators course

Course Content:

1. To help you understand the industry
2. Driver Productivity
3. Pre-Trip inspection
4. A.B.C. of defensive driving
5. Methods of control
6. Hazards
7. Systems of vehicle control
8. Skidding
9. The Road Transport Quality System
10. Commentary Driving
11. Anti Hijack
12. Customer Care
13. Basic First Aid
14. Basic Fire Fighting
15. Conclusion

Target: Taxi Drivers or anyone who Transports other people

Duration: 1 - 2 Days

Modules: 1 - 15

Students: Minimum of 5 Maximum of 15
